### **REASONS FOR ALLOWANCE**

Claims 1-17 are allowed. The following is an examiner's statement of reasons for allowance: regarding claim 1, the prior art does not suggest the connector as claimed, including the combination of all the claimed elements, the combination including that the protrusion of the cover member fills the engaging opening of the base member and the mating frame and the protrusion together form a mating interface with the tongue board received therein for accommodating insertion of the mating connector, and when the mating connector is inserted into the electrical connector, the mating interface elastically expands in a lateral direction. Regarding claim 11, the prior art does not suggest the connector as claimed, including the combination of all the claimed elements, the combination including the protrusion formed on a front portion of the cover member and snugly received in the engaging opening so as to cooperate with said base frame to form the complete circumference. Regarding claim 17, the prior art does not suggest the connector as claimed, including the combination of all the claimed elements, the combination including a protrusion formed on a front portion of the cover member and snugly received in the engaging opening so as to cooperate with said mating frame to define a complete periphery of the mating port.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
